PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER
Fernandina Beach, FL | May 2018 – Present

- Developed and maintained multiple applications using C# and MVC with Git-based source control.
- Optimized database schemas via Entity Framework and SQL Server for maintainability and scalability.
- Collaborated with cross-functional teams to deploy robust, scalable solutions.
- VB.Net to C# conversion of applications.

SOFTWARE DEVELOPER
Bank of America, Jacksonville, FL | November 2015 – May 2018

- Directed remediation of legacy ASP/ASP.NET applications for compliance with updated regulations.
- Managed projects across IIS 2003/2008 servers; created test plans for third-party validation.
- Developed XML-driven auto-provisioning entitlement systems.

SOFTWARE DEVELOPER
Swisher Sweets, Jacksonville, FL | *October 2014 – November 2015*

- Migrated large Microsoft Access databases to SQL Server with VBA backend code conversion.
- Created Vendor Managed Inventory systems for major clients.
- Employed Telerik RAD Controls for WinForms and reporting services.

Software Developer
Email Marketing, Chicago, IL | *February 2014 - October 2014*

- Rewrote and maintained email verification systems with secure login and encryption modules.
- Integrated AD authentication and login/password solutions for internal/external users.

Software Developer

Aetna, Jacksonville, FL | *March 2010 - May 2014*

- Designed and supported internal healthcare applications using VB.NET and SQL Server.
- Created claim audit solutions and customer management tools with Crystal Reports.
- Ensured precision and accuracy for high-stakes financial and healthcare data.

Software Developer

Nassau County Sheriff, Yulee, FL | *May 2006 – November 2009*

- Led development of fleet management and GPS-enabled dispatch applications.
- Built evidence tracking and investigation reporting tools, ensuring security and compliance.
- Trained law enforcement personnel on system usage.

Senior Analyst

Morgan Stanley, NY | May 2000 – May 2006

- Deployed enterprise-wide applications (Acrobat Pro, Documentum, Microsoft Office) to 47,000+ devices.
- Automated Exchange installations across servers, minimizing manual errors.
- Served as technical lead for Windows Installer (MSI) projects; developed deployment tools in VB 6 / VB.NET.
